Warming and Biodiversity Stripes

beamer theme

Franck Pommereau

(you are here)

Basis

- normal text, alerted text
- predefined colors:
    - stripesdarkblue
    - stripeslightblue
    - stripeslightred
    - stripesdarkred

Customize headline

- redefine \insertheadline to customize headline content, default to
  ```
  \insertstripespart{.5}{right}{white}{\insertshortauthor}
  \insertstripespart{.4}{left}{stripesdarkblue}{\insertsectionhead}
  \insertstripespart{.1}{right}{white}{{\insertframenumber} / {\inserttotalframenumber}}
  ```
- \insertstripespart{width}{align}{color}{text} inserts text in headline, width is a fraction of page width (e.g., .5)
- set length stripesheadsep (default: .5em) to adjust space at beginning/end of headline parts
- change headline theme, default to:
  ```
  \defbeamertemplate*{headline}{infolines theme}{%
    \makestripes{climat}\insertheadline}
  ```
- remove headline:
  ```
  \setbeamertemplate{headline}[nohead]
  ```

Customize footline

- redefine \insertfootline like for headline (default: empty macro)
- change footline theme, default to:
  ```
  \defbeamertemplate*{footline}{infolines theme}{%
    \makestripes{biodiv}\insertheadline}
  ```
- remove footline:
  ```
  \setbeamertemplate{footline}[nofoot]
  ```
